VULNERABILITY ESTIMATE

There are 271 surface-to-air missile launch sites in North Vietnam; of this number, 228 are known to be capable of supporting surface-to-air missile operations. Only 28 to 30 SAM battalions, however, are estimated to be active and they are largely concentrated in the Hanoi, Haiphong areas.

25X1D

jet interceptors stationed within North Vietnam but they are not capable of intercepting the OXCART aircraft. This mission has been planned to acquire photographic coverage of the North Vietnam Panhandle region with special emphasis on the DMZ and the two coastal defense sites located just south of Thanh Hoa. The OXCART aircraft will not enter the heavily defended SAM areas of Hanoi or Haiphong.
